

I am against cross-ownership and for freedom of the independent voice.
Under the watchful eyes of powerful corps we will lose sight of objective
international news and will become even more ignorant as to the U.S.'s true
role in international dealings. Already we are tied to the american bias.
The graphic of the sun behind the clouds on FCC public notice is intersting..
im sure the FCC is asking to be seen as the sun, but truly its the dark clouds
that it represents and the peoples freedom of choice that is lost. LESS
MONEY TO CORPS. MORE POWER TO THE PEOPLE! peacex
